

Take advantage of two amazing offers on affordable NEC large-screen LCDs

NEC is upgrading your customers' large-format display service

From April 1 - June 30, 2009, your customers will receive **FREE advanced exchange overnight service on purchases of NEC MultiSync® 15 Series models (LCD3215, LCD4215 and LCD4615)**. Our Advanced Exchange with Overnight Freight Service upgrades support from the standard repair-only warranty and replaces the defective unit within one (1) business day. Advanced Exchange Overnight Service allows your customers to continue working without interruption by having NEC Display Solutions ship them a replacement unit before the defective unit is sent in for repair.

This offer applies to the following models:

32" LCD3215
42" LCD4215
46" LCD4615

To be eligible for Advanced Exchanged Overnight Service, your customers must register their MultiSync 15 Series purchases at <http://www.necdisplay.com/SupportCenter/Registration/>

Terms and Conditions

- End-users must register their products at <http://www.necdisplay.com/SupportCenter/Registration/>
- Deadline to register products for Advanced Exchanged Overnight Service is July 31, 2009

Don't miss out on 50% off NEC MultiSync® 15 Series demo units

From April 1 - June 30, 2009, you'll receive 50% off (MSRP) demo units of the NEC MultiSync 15 Series large-format displays (shipping fees and distribution markup apply).

This offer applies to the following models:

32" LCD3215
42" LCD4215
46" LCD4615

Terms and Conditions

- Order must be drop-shipped direct from NEC Display Solutions.
- Reference RFQ # WHXD-159 on purchase order
- Limit of one (1) unit per reseller location
- Products not eligible for stock rotation
- Demo units cannot be resold for six (6) months after date of purchase
- Demo products do not qualify for price protection and all sales are final
- Offer valid while supplies last

Maximize your customers' messaging with the NEC MultiSync 15 Series, commercial-grade, large-screen LCD displays that provide a cost-conscious solution for digital signage applications. These models feature public display-grade panels that protect against permanent image retention, and a full selection of inputs, which allows them to connect to a wide range of peripheral devices. The high-performance panel and an abundance of advanced technologies that promote extended use, along with an adaptable cabinet design, make MultiSync 15 Series displays ideal for retail and restaurant markets, as well as indoor venues, training facilities and corporate boardrooms.
