

VUKUNET

VUKUNET BRINGS NEW AD REVENUE TO YOU.

VUKUNET is a revolutionary new digital out-of-home advertising platform that connects your display screens to a whole new world of potential advertising revenue. VUKUNET costs nothing and can generate additional money for any business.

FOR THOSE WITH THE RIGHT AUDIENCE, VUKUNET FINDS THOSE WITH A MESSAGE.

With VUKUNET, you're in complete control of your screen network. Advertisers find you and pay you for putting their messages on your screens. By tapping into the power of VUKUNET, your screens become immediately accessible to advertisers. And their ad dollars become immediately accessible to you.

ONLY VUKUNET WORKS LIKE VUKUNET.

VUKUNET makes running an advertising screen network easier than ever. VUKUNET ads are automatically displayed on your network screens at the scheduled time, so there is no intervention needed from you or your IT department.

VUKUNET IS LIKE NOTHING ELSE AND LIKE EVERYTHING ELSE SHOULD BE.

Unlike other ad systems, the VUKUNET ad management platform is flexible enough to work with your existing content management system (CMS). Also, VUKUNET offers you a free content management system (SaaS model) if you need a new one or want to replace your old one. You can use the VUKUNET CMS as much as you like without any monthly hosting or subscription fees if you purchase NEC products or participate in the VUKUNET Ad Manager.

THERE IS ONLY ONE VUKUNET.

VUKUNET is backed by NEC Display Solutions, a global technology leader and innovator for more than 100 years. NEC does it all: designs, produces and delivers leading-edge visual display technology all over the globe.

CONNECT WITH VUKUNET.

See how VUKUNET can increase your revenue at no cost. Sign up today for VUKUNET'S ad management platform and/or get our free CMS.

Register your network today.
