

# Enhance your educational facility with NEC digital signage solutions

**The best and brightest attract the best and brightest.**

Achieve campus-wide connectivity through a single point of access. Reach out to students and faculty with emergency bulletins, class notices and event promotions. Impress prospective students, parents and visitors with a progressive, technology-forward school environment. Send an environmentally conscious message by drastically reducing usage of paper, ink and plastics. With a digital display system, your university will be on the cutting edge.

## NEC digital signage solutions:

- » **generate extra revenue.** Use your digital signage as a fundraising opportunity to sell naming rights.
- » **help with wayfinding.** Via touchscreen kiosks, visitors will no longer feel lost with strategically placed interactive maps.
- » **show off your school pride.** With NEC's high-contrast, professional-grade screens, your team colors will look brighter and sharper than ever.
- » **allow you to replace your old equipment.** NEC's Total Trade™ replacement and recycling program gives you cash for your outdated technology and handles safe and compliant removal.

Liven up your campus...digital signage can provide visual impact.
