

Patient record labeling with SLP-SRL or SLP-SRLC

Smart healthcare and SmartLabels.

ID badges using high-density symbology with adhesive SLP-NB and SLP-NR

X-ray labeling with SLP-FN or SLP-FW

Specimen, X-ray or unit dose labeling, claims coding, personnel and visitor security badges, patient privacy or medical records tracking. When the demands of healthcare management and HIPAA compliance require labeling, the Smart Label Printer® from Seiko Instruments has the answer. Easily create custom labels with 1-D and 2-D bar coding, such as FDA recognized Codabar, EAN-128, highly secure PDF417 or Data Matrix using our bundled Smart Label software. Our new Camera Acquire™ feature lets you capture and insert a snapshot directly from a web camera without cutting and pasting. Simply plug the Smart Label Printer into your PC or Mac®, via the built-in USB or Serial port, and print labels quickly, as fast as one label per second, in clear, legible, machine-scannable 300 dpi. The SLP is ideal for healthcare with no ink, noise or hassle thanks to our clean and quiet thermal printing technology.
