Don't miss your chance to make a great first impression with NEC large-screen LCDs

www.necdisplay.com/dsts

Over the last few years, the NEC Large-Screen LCD Series has been delivering high-performance, head-turning display solutions to a handful of markets. Their screen performance has brought ideas to life, capturing the attention and imagination of viewers and ensuring that messages reach audiences with maximum clarity and impact. With new models available (46" MultiSync LCD4610 and 40" MultiSync LCD4010), featuring the next generation Digital Signage Technology Suite (DSTS), this series is even more equipped to provide digital display applications in any environment with the "wow factor." We also offer many additional award-winning LCDs, including the 30" (29.5" VIS) LCD3000, 21.3" LCD2180UX, 20" LCD2080UX+ and 19" LCDs, that are great complements to your digital signage or kiosk projects.

Digital Merchandising

- Getting the consumer's attention is more than half the battle
- Your message needs to make a direct impact and give the consumer a reason to go buy your product, visit your store or eat at your restaurant
- Your messaging will benefit from the latest technologies to stop passersby in their tracks
- Bright displays with clear text and lifelike images
- Wireless networking and protective screen coverings
- Ideal for movie theaters, restaurants, storefronts and many more retail environments

Airports/Flight and Baggage Information

- Feed information about customers' flights or baggage, or advertisements for local hotels, restaurants or transportation
- Total display solutions, which include 30", 40" and 46" LCDs, different mounting options, long cables and slim PCs, are ideal for concourses, gates, baggage claim areas, check-in counters, food courts and many other areas in airports

Medical

- NEC Display Solutions has many years of experience in the medical industry and has built a reputation for providing technology that allows hospital administrators to keep focus on their patients rather than their equipment
- MultiSync MD Series features grayscale medical-grade displays for use in diagnostic imaging
- MultiSync Professional Series delivers solutions to office information systems, computer tomography, magnetic resonance imaging (MRI) and soft-copy clinical viewing, including Picture Archive Communication System (PACS)
- Large-Screen LCD Series is ideal for operating room scheduling, training, emergency rooms, ambulatory services, conference rooms, cafeterias, lobby information and review rooms

Corporate

- Ideal for conference rooms, lobbies, video conferencing, cafeterias and employee information applications
- Enhance your company's in-house marketing exposure for visitors

Financial

- Speed of execution is vital on trading floors and in other financial institutions
- Whether your solution needs are for a single display, a 4x4 multi-display or other configuration, we have the products and expertise to deliver, including multiple display mounting options and output graphics cards

Dining

- An NEC large-screen LCD and a software package allows you to automatically switch out menus for breakfast, lunch and dinner depending on the time of day
- Additional wall space can be sold to your vendors for an additional revenue stream
- Whet your customers' appetites with a mouth-watering visual of your dishes
- Reduce print costs and/or lost revenue by customizing your menu/prices depending on the day's weather or market changes

For more information on equipping your customers' digital display applications with NEC Large-Screen LCDs, contact your Synnex sales representative.
