

# Head-Turning Digital Posters

## We've got Just What You Need

ViewSonic offers a complete line of sleek, high definition digital posters that deliver impactful POS signage and video advertisements. These stunning ePosters come with built-in speakers, have 2GB CF memory and are simple to operate – just plug and play – no IT department needed.

## Brilliant Advertising Images

The "r" series comes with an embedded media player, great for displaying full HD resolution static images, music and text. Creating slideshows is easy using the supplied ePoster Manager Express Software.

## Play Full Motion Video

The *display* series is ideal for showing high definition video and static images. Versatile input options include; motion HDMI, VGA, and digital media via USB input. This open platform system is compatible with all industry standard media players and digital signage software. Simply connect to any PC or media player and watch impactful HD content come to life. Available in 10" – 52" screen sizes.
